

Mallarapu Yaswanth

Machine Learning Engineer – Mealgrid
Software Engineer – SITER Academy, Norway
Certified Prompt Engineer
IIC ATAL Instructor

Career Objective:

I am a self-motivated, competent, and confident person having 6 Months of Experience as a Machine Learning Engineer. I can manage and handle multi-disciplinary projects, budget, and teams to achieve assigned goals. I have an ability to build strong relationships with people and meet tight timelines. A resourceful problem solver with a proven ability to analyze complex challenges and implement efficient, data-driven solutions.

Personal Details:

- **Sex:** Male
- **Date of Birth:** 11th July 2005
- **Language:** Fluent in writing, speaking, and reading of English and Telugu.
- **Marital Status:** Unmarried
- **Contact Number:** +91 8639975852
- **Email Address:** mallarapuyaswanth05@gmail.com
- **Residence:** India

Portfolio:

- **Linkedin:** <https://www.linkedin.com/in/my2004/>
- **Google Scholar:** <https://scholar.google.com/citations?user=3PFmLI4AAAAJ&hl=en>
- **Researchgate:** https://www.researchgate.net/profile/Yaswanth-Mallarapu?ev=hdr_xprf
- **Credly:** <https://www.credly.com/users/mallarapu-yaswanth/badges/credly>
- **Github:** <https://github.com/MYG-1107/>
- **HackerRank:** <https://www.hackerrank.com/profile/mallarapuyaswan1>
- **Duolingo:** <https://www.duolingo.com/profile/yaswanth.no>

Work Experience

[3] ML ENGINEER – Mealgrid – Norway (Remote) March 2026 – Present

- Designed and implemented a modular Machine Learning Advisory Intelligence microservice using Python and FastAPI.
- Built feature engineering pipelines to analyze historical pricing, promotions, availability, and purchasing patterns.
- Developed deterministic advisory algorithms producing contextual trend, stability, confidence, and buy-timing recommendations.
- Implemented explainable AI outputs for customer-facing recommendation transparency.
- Created production-ready REST APIs integrated with a Django application through controlled API contracts.
- Developed Docker and Docker Compose deployment configurations for consistent cross-environment execution.
- Designed scalable project architecture following modular software engineering principles.
- Collaborated with cross-functional development teams on API integration, interface specifications, deployment, and technical documentation.
- Authored integration guides, deployment manuals, API specifications, and architectural documentation supporting controlled integration.

[2] SOFTWARE ENGINEER - SITER Academy – Norway (Freelancer) **September 2025 – Present**

- Coordinate the daily operations tasks of SITER Academy, Email management, Web application Development and Maintenance cum server Management.
- Developed and Managing/Maintenance of ejite.no (Journal Management System) using PHP, Apache HTTP Server, Tailwind CSS, AOS, jQuery, SweetAlert2 and Swiper.
- I am Responsible for Managing Services and Updates of following Websites:
 1. **SITER Academy, Norway:** www.siteracademy.no
 2. **EJITE:** www.ejite.no
 3. **ICETBDT:** www.icetbdt.no
 4. **ICAAIDT:** www.icaaidt.no
 5. **SITER Academy, India:** www.siteracademy.org

[1] FULL STACK DEVELOPER – SITER Academy, Norway (Freelancer) **March 2025 – August 2025**

- In this project, I am responsible for developing websites similar to IEEE for EJITE. My focus includes implementing ASP.NET Controller-based Web APIs, Minimal APIs, integrating Swashbuckle for API documentation, and developing interfaces using JavaScript. I also ensure seamless backend integration with Mongo DB.
- In this Project i had developed ejite.no website and manages server side instructions.

Projects

[6] AI Model for Indian Dance Classification using Microsoft Azure – [Access the Docs here](#)

- A fully functional, production-ready computer vision model that accurately classifies Indian classical dance forms (Bharatanatyam, Kathak, Kathakali, Odissi, Manipuri, Kuchipudi, Mohiniyattam, Sattriya) from single images using Microsoft Azure Custom Vision.
- The system was built with zero/low-code tools and deployed as a real-time, interactive web application.
- This project demonstrates strong skills in cloud-based AI development, cultural heritage preservation, and modern web deployment.

[5] Website for Listing WordPress Themes – [Access the web here](#)

- This website is for the Business people to find the WordPress Themes for their Websites and Contents.

[4] Web-based Voice Call Application – [Access the web here](#)

- I came across an idea of developing a website for talking to my friends and family using Website, it just requires internet to talk to the people around the world.

Challenge: Initially the product gives the calls to only for the users with same Internet Service Provider (ISP), Later using API Integration (Metered) into Render

[3] Language Learning Application (English to Norwegian Translator) – [Access the web here](#)

- I face a challenge in learning a Norwegian using English Translator and some other tools, I came across an idea of building this application to learn Norwegian by speaking English Conversations and text to speech and many more inside.

[2] Web-based Portfolio – [Access the web here](#)

→ this is my personal website for showing all of my experiences, Projects, Skills Certificates, Education, Contact page and all other active web sources related to “Mallarapu Yaswanth”.

[1] Python Terminal Based Games – [Access the web here](#)

→ When, I was in first year of Undergraduate I came across an idea of developing a Terminal based games for students to understand the usage of Terminal Keys and Functions such as: Save, Update, Load, Create, Delete, Retrieve and some other Shortcut Commands to upgrade the fast usage and Implementation.

Professional Education:

Institute Name	Field of Study	Score (CGPA / Marks)	Year of Passing
Vaagdevi College of Engineering	B. Tech – CSE (AI&ML)	8.9 CGPA	2027
MJPTBCWRJC STATION GHANPUR (Boys)	MPC	892 / 1000	2023
MJPTBCWR SCHOOL KUKATPALLY (Boys)	SSC – 10 th Class	10.0 CGPA	2021
CSCE Computer Education	PGDCA	818 / 900	2021

Core Competencies & Technical Skills:

- **Machine Learning & AI:** Feature Engineering, Predictive Analytics, Computer Vision (Image Classification), Low-Code AI, Explainable AI (XAI), Deterministic Advisory Algorithms, Time-Series Analysis.
- **AI Ecosystem & GenAI Tools:** Grok, Anthropic (Claude), OpenAI (ChatGPT, Codex), Gemini, AI Prompt Engineering, GitHub Copilot.
- **Programming Languages:** Python, C# (ASP.NET Core), Java, PHP, JavaScript, TypeScript, C, SQL.
- **Frameworks & Libraries:** FastAPI, Django, Streamlit, NumPy, Pandas, ReactJS, Next.js, Node.js, AngularJS, jQuery, Pillow.
- **Cloud, MLOps & DevOps:** Microsoft Azure (Custom Vision, AI Services), CI/CD Pipelines, Docker, Docker Compose, Streamlit Cloud, Render, Server Management.
- **Databases & Technologies:** MongoDB, IndexedDB, Apache HTTP Server, HTML5/CSS3, Tailwind CSS, RESTful API Design (Swagger/Swashbuckle), Git, LaTeX.
- **Prompt Engineering and Looping**

Certificates

- AWS Academy Graduate - AWS Academy Cloud Foundations, Amazon Web Services Training and Certification, Issued: January 31, 2025
- Software Engineer, HackerRank, Issued: November 21, 2024
- Celonis Foundations, Celonis, Issued: October 4, 2024
- Getting Started with Artificial Intelligence, IBM SkillsBuild, Issued: September 28, 2024
- Getting Started with Enterprise Data Science, IBM, Issued: February 28, 2024
- Python (Basics), HackerRank, Issued: February 27, 2024
